**Re: Proposed SaskTel Telecommunications Facility
Craven Festival Grounds, Saskatchewan
Surface Parcel: #112059918, NW 14-20-21-W2M Ext. 110**

Please find attached, a Public Notification Package for your office file.

As directed by Innovation, Science & Economic Development (ISED) all Proponents that would propose to install a telecommunication facility in an area advise the public of its intentions. In this regard, SaskTel has sent out information packages to landowners within three (3) times the tower height and has arranged a public notice in the local paper.

The attached Public Notification Package is sent to your office to aid in addressing any concerns or comments your ratepayers may have regarding this proposal.

SaskTel is considering constructing a 35m Monopole as shown on the site plan. This tower is required to provide enhanced wireless communications facilities in the Craven Festival grounds.

If you have any questions or concerns regarding this proposal, contact me at the above- mentioned number.

Yours truly,

Geralyn Empleo
